CONTENTS OF VOLUME 6

Abram, D. and **Gibbons, N. E.** Turbidity of suspensions and morphology of red halophilic bacteria as influenced by sodium chloride concentration, 535.
Alexander, M. See Hirsch, P., 241.
Anderson, A. W. See Raj, H. D., 289.
Anzai, H. See Neter, E., 235.
Armstrong, R. E. See French, R. C., 175.
Baichwal, M. R. and **Walker, G. C.** A preliminary investigation of the pigments of *Trichophyton rubrum*, 383.
Baichwal, R. S., Baxter, R. M., and **Walker, G. C.** The lack of a reversing effect of certain metallic ions on the inhibitory action of salicylanilide, 595.
Baker, H., Frank, O., Pasher, I., Black, B., Hutner, S. H., and **Sobotka, H.** Growth requirements of 94 strains of thermophilic bacilli, 557.
Basu, S. N. and **Ghose, S. N.** The production of cellulase by fungi on mixed cellulosic substrates, 265.
Baxter, R. M. Carotenoid pigments of halophilic bacteria, 417.
See also Baichwal, R. S., 595.
Beer, M. See Colvin, J. R., 631.
Bell, G. R. Studies on a soil *Achromobacter* which degrades 2,4-dichlorophenoxyacetic acid, 325.
Beskid, G. See Lundgren, D. G., 135.
Black, B. See Baker, H., 557.
Black, S. H. See Hashimoto, T., 203.
Black, S. H., Hashimoto, T., and **Gerhardt, P.** Calcium reversal of the heat susceptibility and dipicolinate deficiency of spores formed "endotrophically" in water, 213.
Blackwood, A. C. See Blakley, E. R., 107.
Blakley, E. R. and **Blackwood, A. C.** The metabolism of 2-keto-D-gluconate by resting cells of *Leuconostoc mesenteroides*, 107.
Buck, J. D. and **Cleverdon, R.C.** Hydrogen sulphide production by some agarolytic marine bacteria, 594.
Chang, S. L. Growth of small free-living amoebae in various bacterial and in bacteria-free cultures, 397.
Clement, M. T. and **Gibbons, N. E.** *Aeromonas hydrophila (Pseudomonas hydrophila)* NRC 491 and NRC 492 established as *Aerobacter cloacae*, 591.
Cleverdon, R. C. See Buck, J. D., 594.
Collins, A. M., Duncan, I. B. R., Neelin, E. M., Znamirowski, R., and **Roy, T. E.** Some serological properties of substances extracted from staphylococci and a hemolytic streptococcus, 661.
Colotelo, N. See Ward, E. W. B., 545.
Colvin, J. R. and **Beer, M.** The formation of cellulose microfibrils in suspensions of *Acetobacter xylinum*, 631.
Comtois, R. D. Changes in the phage-typing patterns of staphylococci following lysogenization with a related group of staphylococcus bacteriophages, 491.
Cook, F. D. and **Katznelson, H.** Isolation of bacteriophages for the detection of *Corynebacterium insidiosum*, agent of bacterial wilt of alfalfa, 121.
Corpe, W. A. The extracellular polysaccharide of gelatinous strains of *Chromobacterium violaceum*, 153.
Coulombe, L.-J. See Paquin, R., 435.
Deeney, A. M. See Raj, H. D., 289.
Desrochers, R. and **Fredette, V.** Étude d'une population de bactéries réductrices du soufre, 349.
Diena, B. B. See Eidus, L., 283.
Doi, R. H. See O'Connor, R. J., 233.
Douglas, R. J. See Robinson, J. B., 565.
Duncan, I. B. R. See Collins, A. M., 661.
Duryee, F. L. See Raj, H. D., 289.
Edwards, G. A. See Edwards, M. R., 65.
Edwards, M. R., Hazen, E. L., and **Edwards, G. A.** The micromorphology of the tuberculate spores of *Histoplasma capsulatum*, 65.
Eidus, L., Diena, B. B., Maniar, A. C., and **Greenberg, L.** A microbiological assay for the quantitative determination of glycerol, 283.
Elkan, G. H. and **Moore, W. E. C.** The effect of partial sterilization of field soils by chemicals upon differential microbial counts, CO_2 activity, and rates of organic matter decomposition, 339.
Elliker, P. R. See Raj, H. D., 289.

Fenje, P. Propagation of rabies virus in cultures of hamster kidney cells, 479.
A rabies vaccine from hamster kidney tissue cultures: Preparation and evaluation in animals, 605.
Fox, S. M. See MacLeod, R. A., 639.
Frank, O. See Baker, H., 557.
Franklin, A. E. The effect of hormones on HeLa cells inoculated with infectious hepatitis specimens, 529.
Fredette, V. See Desrochers, R., 349.
French, R. C. and **Armstrong, R. E.** Thermal inactivation of MEF1 poliovirus, 175.
French, R. C., Moreau, P., and **Yarosh, W.** The rapid production of antisera against attenuated polioviruses, 599.
Garrard, E. H. See Robinson, J. B., 565.
Gerhardt, P. See Black, S. H., 213; Hashimoto, T., 203.
Ghose, S. N. See Basu, S. N., 265.
Gibbons, N. E. See Abram, D., 535; Clement, M. T., 591; Payne, J. I., 9; Sehgal, S. N., 165.
Gillespie, D. C. Isolation of bacteriophage for *Arthrobacter globiformis*, 477.
Gorham, P. R. See Zehnder, A., 645.
Gorin, P. A. J. See Reusser, F., 17.
Gorzynski, E. A. See Neter, E., 235.
Gould, G. W. and **Lees, H.** The isolation and culture of the nitrifying organisms. Part I. *Nitrobacter*, 299.
Greenberg, L. See Eidus, L., 283.
Grinyer, I. See Robinson, J. B., 565.
Habeeb, A. F. S. A. A study of bacteriological media: the examination of peptides in casamin E, 237.
Halvorson, H. See O'Connor, R. J., 233.
Harrington, A. A. and **Kallio, R. E.** Oxidation of methanol and formaldehyde by *Pseudomonas methanica*, 1.
Hashimoto, T. See Black, S. H., 213.
Hashimoto, T., Black, S. H., and **Gerhardt, P.** Development of fine structure, thermostability, and dipicolinate during sporogenesis in a bacillus, 203.
Haskins, R. H. A heterothallic, inoperculate discomycete: morphology and development, 225.
Hazen, E. L. See Edwards, M. R., 65.
Hirsch, P. and **Alexander, M.** Microbial decomposition of halogenated propionic and acetic acids, 241.
Hori, A. See MacLeod, R. A., 639.
Hutner, S. H. See Baker, H., 557.
Kallio, R. E. See Harrington, A. A., 1.
Katznelson, H. See Cook, F. D., 121.
Kelen, A. E. See Labzoffsky, N. A., 453.
Kelen, A. E. and **Labzoffsky, N. A.** Studies on latex agglutination test for leptospirosis, 463.
Kemp, W. G. See Weintraub, M., 407.
Labzoffsky, N. A. See Kelen, A. E., 463.
Labzoffsky, N. A. and **Kelen, A. E.** Studies on complement fixing antigens of leptospirae, 453.
Lachance, R.-A. The vitamin requirements of *Corynebacterium sepedonicum* (Spiek. & Kott.) Skapt. & Burkh., 171.
See also Paquin, R., 435.
Landi, S. Bacteriostatic effect of haemolymph of larvae of various botflies, 115.
Ledingham, G. A. See Tulloch, A. P., 425.
Lees, H. See Gould, G. W., 299.
Lewin, J. C. and **Lewin, R. A.** Auxotrophy and heterotrophy in marine littoral diatoms, 127.
Lewin, R. A. A device for obtaining mutants with impaired motility, 21.
See also Lewin, J. C., 127.
Lockhart, W. R. Measurement of generation lag, 381.
Lundgren, D. G. and **Beskid, G.** Isolation and investigation of induced asporogenic mutants, 135
Lynch, D. L. The effect of rose bengal on polysaccharide production in soils, 673.
McDonald, I. J. A minimal synthetic medium supporting growth of a *Micrococcus* species, 251.
MacDonald, J. C. Biosynthesis of valinomycin, 27.
See also Siepmann, R., 573.
MacKinnon, J. P. Time of movement of potato leaf-roll and turnip-latent viruses out of leaves of *Physalis floridana* Rydb., 679.
McLachlan, J. The culture of *Dunaliella tertiolecta* Butcher—a euryhaline organism, 367.

MacLeod, R. A., Hori, A., and **Fox, S. M.** Nutrition and metabolism of marine bacteria. X. The glyoxylate cycle in a marine bacterium, 639.
Maniar, A. C. See Eidus, L., 283.
Menzies, J. D. Continuous-flow dilution of soil suspensions for microbial assay, 583.
Montford, J. See Robinson, J., 183, 195.
Moore, H. B. and **Pickett, M. J.** The *Pseudomonas–Achromobacter* group, 35.
Organisms resembling *Alcaligenes faecalis*, 43.
Moore, W. E. C. See Elkan, G. H., 339.
Moreau, P. See French, R. C., 599.
Neelin, E. M. See Collins, A. M., 661.
Neter, E., Gorzynski, E. A., and **Anzai, H.** Effect of noxiversin on bacterial toxins which alter dermal reactivity of rabbits to epinephrine, 235.
O'Connor, R. J., Doi, R. H., and **Halvorson, H.** Preparation of bacterial spore extracts by use of the Eppenbach colloid mill, 233.
Paquin, R., Lachance, R.-A., and **Coulombe, L.-J.** La production des enzymes pectiques par *Corynebacterium sepedonicum*, 435.
Pasher, I. See Baker, H., 557.
Payne, J. I. See Smith, B. S. W., 485.
Payne, J. I., Sehgal, S. N., and **Gibbons, N. E.** Immersion refractometry of some halophilic bacteria, 9.
Pickett, M. J. See Moore, H. B., 35, 43.
Polley, J. R. Preparation of a stable non-infective complement-fixing antigen for herpes simplex, 515.
Potter, L. F. The effect of pH on the development of bacteria in water stored in glass containers, 257.
Quadling, C. Mutation conferring streptomycin resistance in *Xanthomonas phaseoli*, 387.
Preservation of *Xanthomonas* by freezing in glycerol broth, 475.
Ragetli, H. W. J. See Weintraub, M., 407.
Raj, H. D., Duryee, F. L., Deeney, A. M., Wang, C. H., Anderson, A. W., and **Elliker, P. R.** Utilization of carbohydrates and amino acids by *Micrococcus radiodurans*, 289.
de Repentigny, J. See Sonea, S., 519.
Reusser, F., Gorin, P. A. J., and **Spencer, J. F. T.** The production of fructose as a residue of sucrose fermentation by *Tricholoma nudum*, 17.
Robinson, J., Thatcher, F. S., and **Montford, J.** Studies with staphylococcal toxins. V. Possible identification of alpha hemolysin with a proteolytic enzyme, 183.
Studies with staphylococcal toxins. VI. Some properties of a non-hemolytic dermonecrotic toxin produced by some strains of *Staphylococcus aureus*, 195.
Robinson, J. B., Douglas, R. J., Grinyer, I., and **Garrard, E. H.** Chromatography of coliphages T_1 and T_2 on columns of calcium phosphate, 565.
Roy, T. E. See Collins, A. M., 661.
Sehgal, S. N. See Payne, J. I., 9.
Sehgal, S. N. and **Gibbons, N. E.** Effect of some metal ions on the growth of *Halobacterium cutirubrum*, 165.
Siepmann, R. and **MacDonald, J. C.** Hexokinase activity of yeasts grown on biotin-rich and biotin-deficient media, 573.
Smith, B. S. W., Payne, J. I., and **Watson, R. W.** Preparation of spheroplasts of *Aerobacter cloacae*, 485.
Sobotka, H. See Baker, H., 557.
Sonea, S. and **de Repentigny, J.** Observations sur les couleurs de la fluorescence primaire des microorganismes, 519.
Spencer, J. F. T. See Reusser, F., 17.
Stotzky, G. A simple method for the determination of the respiratory quotient of soils, 439.
Stross, R. G. Growth response of *Chlamydomonas* and *Haematococcus* to the volatile fatty acids, 611.
Taber, W. A. Studies on *Isaria cretacea*. Morphogenesis of the synnema and endogenous nutrition, 53.
Evidence for the existence of acid-sensitive actinomycetes in soil, 503.
See also de Waart, C., 675.
Taber, W. A. and **Vining, L. C.** A comparison of isolates of *Claviceps* spp. for the ability to grow and to produce ergot alkaloids on certain nutrients, 355.
Taussig, A. The effect of carbamyl phosphate and cyanate on *Escherichia coli*, 619.
Thatcher, F. S. See Robinson, J., 183, 195.
Tribe, H. T. Aspects of decomposition of cellulose in Canadian soils. I. Observations with the microscope, 309.
Aspects of decomposition of cellulose in Canadian soils. II. Nitrate nitrogen levels and carbon dioxide evolution, 317.
Tulloch, A. P. and **Ledingham, G. A.** The component fatty acids of oils found in spores of plant rusts and other fungi, 425.

Vining, L. C. See Taber, W. A., 355.
de Waart, C. and **Taber, W. A.** Some aspects of phosphate metabolism of *Claviceps purpurea* (Fr.) Tul., 675.
Walker, G. C. See Baichwal, M. R., 383; Baichwal, R. S., 595.
Wang, C. H. See Raj, H. D., 289.
Ward, E. W. B. and **Colotelo, N.** The importance of inoculum standardization in nutritional experiments with fungi, 545.
Watson, R. W. See Smith, B. S. W., 485.
Webb, S. J. Factors affecting the viability of air-borne bacteria. II. The effect of chemical additives on the behavior of air-borne cells, 71.
Factors affecting the viability of air-borne bacteria. III. The role of bonded water and protein structure in the death of air-borne cells, 89.
Weintraub, M., Kemp, W. G., and **Ragetli, H. W. J.** Studies on the metabolism of leaves with localized virus infections. I. Oxygen uptake, 407.
Weston, L. M. Stable oil-agar emulsions for use in culture media, 680.
Yarosh, W. See French, R. C., 599.
Zehnder, A. and **Gorham, P. R.** Factors influencing the growth of *Microcystis aeruginosa* Kütz. emend. Elenkin, 645.
Znamirowski, R. See Collins, A. M., 661.
